

# Welcome to Bayside Veterinary Care!

233 WASECA AVE BARRINGTON, RI 02806  
401-310-0346 • RECEPTION@BAYSIDEVETCARE.COM • WWW.BAYSIDEVETCARE.COM

We are excited to welcome you to the **Bayside Veterinary Care** family! We strive to create a low-stress environment for your furry family members, while providing comprehensive, progressive medical care in our state-of-the-art veterinary facility.

## Progressive Medicine with Traditional Values

*Bayside Veterinary Care*

Bayside began with a new approach to veterinary care. With the recent trend of medicine moving toward shorter appointments, less communication, and compartmentalized care, patient wellness can be compromised.

Our approach includes longer appointment times, allowing us to collect a detailed environmental, behavioral, nutritional, and medical history; perform a thorough physical exam; and work together with families to promote our patients' long-term health.

Our comprehensive, integrated approach to veterinary medicine combines state-of-the-art diagnostic imaging,

a complete laboratory, and a full pharmacy. Our surgical suite is equipped with all the monitoring equipment needed to perform procedures in the safest possible setting. Our follow-up care includes pain management, physical therapy, acupuncture and extensive client communication.

## What does Fear Free mean for me and my pet?

Here at Bayside we are proud to practice Fear Free techniques in order to keep our patients and clients as relaxed and comfortable as possible. We strive to create a pleasant experience at the vet's office by providing a calm, warm environment and applying appropriate behavioral knowledge. Our staff are trained to use a gentle approach, anticipate anxiety triggers, and prevent stressful

situations. You may notice that we would rather examine a dog by sitting next to him on the floor or that we'll have you hold your cat in your lap to make sure she is more comfortable. We work to incorporate play and positive experiences into every exam. The design of our office also keeps your pet's comfort in mind. Our floor was chosen to help provide traction and

reduce glare. Our tables are kept folded against the wall to provide space for dogs to wander around the exam room. If we do need the table, each pet is provided with a clean, soft mat to avoid standing on a cold, slippery surface. We believe these strategies are necessary when working together with families to ensure the most thoughtful care possible.
